**MR GEARBOX AT FLUID
7G-9G 5L**

Product Description

Mr. GEAR BOX ATF 7G-9G is a top-tier synthetic automatic transmission fluid, formulated with high-quality synthetic base stocks and the latest additive technology. It excels in applications requiring low viscosity ATF, including Toyota Type WS, Nissan Matic S, Hyundai SP-IV, ZF M1375, DEXRON-VI, and MERCON LV.

ATF 7G-9G's synthetic base stocks and stability provide robust protection against thermal breakdown at high operating temperatures, while maintaining excellent performance at temperatures as low as -45°C. Furthermore, it enhances transmission durability and cleanliness, ensuring optimal long-term performance.

Applications / Benefits

- Delivers outstanding oxidation and thermal stability, extending the lifespan
- Offers superior wear protection to safeguard essential transmission components
- Maintains excellent viscosity stability (high VI), suitable for a wide range of automatic transmissions
- Enhanced fluidity in extremely low temperature conditions
